3 INTRODUCTION AND BACKGROUND

3.1 WHAT IS NATIONAL CONSTRUCTION INCUBATOR (NCI)

The National Construction Incubator (NCI) was established through the SEDA's mandate to offer developmental services to construction/ built-environment's SMMEs through a structured mentorship programme within the said ambit nationally.

NCI's mandate is aimed at partaking to respond to the South African National Development Plan 2030 with primary focus on the economic advancement of the under privileged Construction Sector/ Built-environment's South Africans.

In that, by addressing "The key measures of economic success identified in the plan for South Africa to achieve:

- *Average Gross Domestic Product (GDP) growth of over 5 percent and that by 2030 GDP per capita be more than twice the present levels;*
- *Export growth been accelerated;*
- *income levels having risen above the poverty line for all*
- *Inequalities been substantially reduced;*
- *Unemployment been reduced from 25 percent to 6 percent".*

The construction/ built-environment industry is a significant contributor in the economy of South Africa. This extends to the industry being the substantial contributor to employment and growth.

South Africa's construction/ built-environment sector has undergone significant transformation and growth over the past two decades. Government has effectively used the arena of social delivery as a capital accumulation strategy for the emerging small and medium contractors. These changes and growth as much as they presented opportunities for upcoming contractors it also presented a glaring need for development and support of contractors in order to enable them to achieve required competitive levels to be competent players in the industry.

The sector as a whole has had its share of challenges as a result of the decline in construction/ built-environment industry which also drives down profitability in the sector. Private sector projects investment continues to be under strain as a result of gloomy outlook for economic growth. Nonetheless, government infrastructure investment programmes are expected to continue to contribute over the medium term, despite pressure on public capital expenditure.

The support and development of contractors therefore remains a core requirement in enabling emerging contractors to play a meaningful role in the sector, ensuring growth and sustainability.

NCI was thus established in 2006 and has since been striving towards being a centre of excellence within the incubation space and mainly focusing on construction SMMEs.

3.2 ACCOMPLISHMENTS TO DATE

For the past fourteen years NCI has thrived from a one man-run business with a ZAR1,5 million budget to a fully-fledged construction incubator with a budget of approximately R50million.

- **Clients supported:** Over 300 contractors in the civil and building construction space have been assisted through our structured mentorship program.
- **Jobs created:** 3000 job opportunities have been to date created by our SMME/ Incubatees.
- **Turnover Generated:** Over ZAR600 million turnover to date has been contributed in the RSA GDP by our Incubatees.
- **National Footprint:** Eleven branches have since been opened in four provinces i.e. KwaZulu Natal, Eastern Cape, Limpopo and Gauteng. NCI has serviced rural, peri urban and urban areas, Nationally.

3.3 Vision

To be the leading construction incubator and center of excellence in the development of competitive Small Medium Enterprises through business, technical and innovative interventions within the built-environment.

3.4 Mission

To enhance the capacity of SMEs in the built environment through the structured infusion of business, technical and technology interventions which leads to sustainable businesses, significant job creation and a positive contribution to the South African Economy.

 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
