

EMERGING CONTRACTORS – CIDB GRADES 1 TO 5

Applications are hereby invited to participate in the Nelson Mandela Bay Municipality Contractor Development Programme. The Contractor Development Programme is an initiative of NMBM in partnership with National Construction Incubator. The formation of the programme emanates from a need for support of emerging contractors operating their businesses within Nelson Mandela Bay Municipality. Small companies in the construction sector often reach the ceiling early in their development because they are unable to develop their business beyond the survival stage mainly due to managerial and operational constraints.

THE PROGRAMME IS AIMED AT:

- Identifying emerging contractors within the Nelson Mandela Bay Metropolitan Municipality area who have demonstrated potential to develop into formidable entity by achieving a financial grade 3 or higher registration on the CIDB register of contractors.
- Providing business support services including business administration, financial management and technical support, as well as generic business administration, HR management and statutory compliance.

The Nelson Mandela Bay Municipality together with National Construction Incubator would like to extend an invitation to contractors registered with the **CIDB**, residing within **Nelson Mandela Bay Municipality** to apply for participation in the contractor development programme.

Note: THIS INVITATION DOES NOT GUARANTEE INCLUSION IN THE PROGRAMME

- 1.1 Due to limited space only contractors who meet the qualification criteria will be selected into the programme.

**Application forms are available from the website: <http://natci.org.za>
and www.nelsonmandelametro.gov.za from the:**

15th January 2021, closing on the 12th February 2021 at 14H00,
